Hudson Valley Eye Surgeons, P.C.
Provides Comprehensive
General and Specialty Eye Care

Your Eyes Deserve the Best

The field of ophthalmology has changed enormously during the past 30 years, and Hudson Valley Eye Surgeons, P.C. has consistently been in the forefront of advances in the profession. One thing has remained constant throughout this period: the practice's commitment to providing the highest level of state-of-the-art eye care.

"Hudson Valley Eye Surgeons is committed to providing the highest quality care for our patients."

— Eric R. Brocks, M.D., FACS

The Hudson Valley Eye laser vision team uses the newest Visx Star S4 Active Trak Excimer Laser.

The Ophthalmologists of Hudson Valley Eye Surgeons

Eric R. Brocks, M.D., FACS
Martin R. Leopold, M.D., FACS
Greg A. Diamond, M.D.
Leslie B. Moskowitz, M.D.

The most highly respected ophthalmology practice in the area, HVES not only receives referrals from other physicians — it cares for their eyes, as well.

HVES is conveniently located in Vassar Brothers Medical Mall in Fishkill, which is also home to the area's newest, up-to-date ambulatory surgery center, as well as Optical Fashions, a full-service optical shop.

In case of emergency, patients can feel confident that one of the doctors is always on call. All of the ophthalmologists are on staff at Vassar Brothers Medical Center.

Patients benefit from the collective knowledge and experience of five board-certified ophthalmologists with expertise in both general ophthalmology and a variety of subspecialties. In addition to one of the few neuro-ophthalmologists outside a major medical center, the practice includes specialists in cornea and cataract surgery, diabetic retinopathy, LASIK and other forms of vision correction. An optometrist who specializes in low-vision devices as well as difficult contact lens fittings is another key member of the professional staff.

Patient-Centered Care

Medical expertise is only part of the picture at HVES. Doctors and staff alike are dedicated to making patients feel comfortable. "We're a very patient-oriented practice," says Greg A. Diamond, M.D., "and we work hard at maintaining a friendly and individualized experience for everyone who walks through the door."
